

Sheradee Bradfield

PROFILE

I have been a Jordan Credit Union member since I was born. My mom opened an account for me, and I still have and use that account. I started teaching for the Jordan School District in 1991 and currently work for Canyons District at Midvale Middle School. I know first hand how much the Jordan Credit Union values teachers and students. I was an advisor on the Jordan Credit Union Board from 2013 - 2019, a board member from 2019 to the present, and the Board Chair since March 2021. During this time I have completed volunteer education classes to understand the role of a board member and how to better serve our members. Since being the Board Chair, we have worked together to solidify the Jordan Credit Union's directional goals. As a Board Member, I will continue to support our credit union with its current policies, goals, vision, direction, and doing what is best for our members. I am excited about the changes Jordan Credit Union is making and look forward to the improvements and conveniences it will provide into the future. It would be an honor to continue serving as a board member for Jordan Credit Union.

EXPERIENCE

I have served on the Jordan Credits Union Board since 2013. I have been to several credit union conferences, and taken online classes. This has helped me learn about our credit union and how to better serve our members. I am also an educator at Midvale Middle School, and I am passionate about the connection Jordan Credit Union has with educators.

EDUCATION
